Volume 27 Author and Subject Index

A
aberrancy detection, 121
alpha stratification, 107
appropriateness, 121
a-stratified adaptive testing, 262

B
Bayesian estimation, 27
Bayesian item selection 247
Bayesian statistics, 217
Bechger, T. M., 319
Béguin, A. A., 319
Bolt, D. M., 395
Bonett, D. G., 72
Brand, P. A., 52
Brooks, G. P., 303

C
chance success, 357
Chang, H.-H., 107, 262
Cheng, P. E., 204
Cheung, M. W.-L., 234
chi-square distribution, 87
classical test theory, 319
computerized adaptive sequential testing, 335
computerized adaptive testing, 107, 204, 247, 262, 335
content constraints, 107
corrected correlations, 52
Cronbach's alpha, 72

D
Davis, L. L., 335
delta method, 372
DeMars, C. E., 275
density estimation, 204
differential item functioning, 372
differential reliability, 72
Dimitrov, D. M., 440
Dodd, B. G., 299, 335

E
efficient score test, 87
Emons, W. H. M., 459
error score, 357
exposure control, 335

F
Falcón, J. C. S., 87
Fischer, G. H., 3
Fisher information, 204
Fitzpatrick, S. J., 299

G
gain scores, 3
Glas, C. A. W., 87, 217, 247
goodness of fit, 87
guessing, 357

H
Hambleton, R. K., 27
Hashim, S., 372

I
individual change, 3
internal consistency, 72
IRT, 121
IRT item parameter estimation, 27
item cloning, 247
item exposure control, 107
item exposure rates, 204
item fit, 87
item fit index 289
item memorization, 121
item pool stratification, 262
item reliability, 319
item response function, 319
item response theory, 121, 204, 217, 289, 319, 372
item response theory (item fit), 87
item total correlation, 319
item true score, 319

J
Jansen, M. G. H., 138
Johanson, G. A., 303

L
Lagrange multiplier test, 87
Lewis, C., 121
Liou, M., 204
local item dependencies, 159

M
MacIntosh, R., 372
marginal maximum likelihood, 247
Maris, G., 319
McLeod, L., 121
measurement of change, 3
Meijer, R. R., 75, 78, 217
MIMIC model, 372
model fit, 217
modification indices, 87
Mplus, 372
Müller, J. M., 380
multilevel item response theory, 247
MULTILOG, 275
multiple-choice test, 357

N
nominal response, 275

O
observed score, 357
Orlando, M., 289

P
parameter recovery, 275
Partial Credit Model, 3, 335
Penfield, R. D., 301
person fit, 121, 217
polytomous IRT, 275
polytomous item response theory, 335
posterior predictive check, 217
power studies, 87, 217

R
Raju, N. S., 52
range restriction, 52
Rasch Model, 3, 138
Rating Scale Model, 3
reliability, 52, 72, 357
response speed 138
Rizavi, S. M., 27

S
selection criteria, 204
shadow test approach 107
Sireci, S. G., 27
Smits, D. J. M., 415
standard errors, 52
Swaminathan, H., 27

T
Tate, R., 159
test dimensionality, 159
test factors, 159
test structure, 159
Thissen, D., 121, 289
three-parameter logistic model, 87
three-parameter normal ogive model, 217
Thum, Y. M., 305
trait estimation, 204
true-false test, 357
true score, 357
true test score, 319
Type I error, 87, 217

V
validity, 357
van der Linden, W. J., 107, 247, 262
variance estimation, 372
